

0 NICOTIN® - and the cigarette does not taste any more

- Giving up smoking – in a completely different and new, completely natural and simple way
- **German patent**
- Europe-wide registration (CPNP)
- **WITHOUT the supply of NICOTINE** – therefore highest safety (children), that is: **no nicotine substitute** – so you do not give up smoking immediately.
- **CALMUS** changes the taste of cigarettes in negative ways – they do not taste any more
- lighted cigarettes are generally not smoked to their end
- you do not give up smoking immediately – no unpleasant side effects
- **SAFE** in usage, no danger to others
- no overdoses possible
- used as a toothpaste **BEFORE smoking** decreases the desire to smoke
- **First usage:** the best way is to clean your teeth on an empty stomach with a directly followed cigarette – which will not taste like before
- **Craving for the next cigarette disappears**
- Continuously you smoke less and less – until you give up completely
- Consequent usage of the product helps to remove the nicotine and tar out of your body
- **Best for daily oral hygiene**

The above mentioned points establish **0 NICOTIN®** beyond the general descriptive term „toothpaste”, and, furthermore, give **0 NICOTIN®** a unique position in the spectrum of products against smoking because it works without nicotine added!

With the products on the market which are available at present, the consumer (willing to give up smoking) must waive on his cigarettes immediately! The highly dangerous poison 'nicotine' is inflicted to the human body in other ways – so there is a possibility of supplying an overdose.

However, with **0 NICOTIN®** you yourself can individually limit the amount of cigarettes you smoke daily, until the toxins are eliminated from your body. It does not replace the nicotine in your body, but it helps you that the following cigarettes do not taste the way you remember them to taste. With this option, you are willing to give up smoking in the end.
